**Fascination EIGER:  
Menacing beauty  
and legend**

The Eiger with its notorious North Wall is a legend among mountaineers. Countless dramatic events have been played out on this mountain and for many there was no way back. The first successful ascent of the North Wall was made in 1938. Since then, many nationalities have pitted themselves against the Eiger North Wall.

**15** Original Route  
(Harrer-Heckmair-Kasperek-Vörg, 1938)

**12** Japanese Direttissima  
(Imai-Kato-Kato-Negishi-Hirofumi-Kubo, 1969)

Comparison of successful rope parties:

1938	Anderl Heckmair, Ludwig Vörg	3 days
1974	Reinhold Messner, Peter Habeler	10 hrs.
2010	Ueli Steck, Bruno Schläppi	5 hrs.

## EIGER ROCK – Craftsmanship from the region

Not only mountaineers but also artists, photographers and visitors from all over the world are overwhelmed by the Eiger and repeatedly experience the magical allure of its North Wall.

**Real Eiger Rock** makes it possible to relive lasting memories of this impressive mountain.

The stone from the Eiger massif has been cut to a width of approx. 2 cm.

The contour matches the Eiger to a scale of approx. 1:30,000.

Highlights:

- Authentic rock from the Eiger (mountain limestone)
- True-to-scale silhouette of the Eiger
- Each stone is unique
- Base available in wood, acryl, chrome or gold-plated

The friendly members of the **Eiger-Robot family** with traditional names such as Kari, Heidi and Willi, will provide lasting memories of your excursion into the unique mountain world around the Eiger and the Jungfrau Region (not suitable as toys for children under 3 years of age).

Enjoy candlelight in a rustic and romantic atmosphere!

The attractive candle holders are also made from Eiger rock. Each one is unique!
